Mr. Troy Hughes  
SELA Commercial Roofing  
1743 County Road F East  
White Bear Lake, MN 55110

Dear Troy

Once again, SELA Commercial Roofing has earned the prestigious GAF Master Select Contractor Status. Your ability to match the right technology with a specific roofing solution, and use trained professionals to perfectly install, support and maintain a variety of roofing systems, clearly demonstrates that SELA Commercial Roofing is simply “the best of the best”

Since 2000, SELA Commercial Roofing has been granted over 320 warranted projects, covering over 5,400,000 square feet of roof area. SELA Commercial Roofing has installed virtually every product within the GAF Building Materials product line, to include; Built-Up Roof assemblies, Modified Bitumen, TPO and PVC. SELA Commercial Roofing has taken these assemblies and combined them with our steep slope products to provide single source warranties.

In addition your continued commitment to training and participation in Industry organizations such as C.A.R.E and the NRCA is second to none.

We at GAF Building Materials are proud of our relationship with your firm and recognize SELA Commercial Roofing for their outstanding commitment to excellence.

Thank you for your continued support

John W. Jensen CDT  
Low Slope Territory Manager
